

HELGØYSUND MARINA PORT FACTS SHEET

Position of the port	59.227323, 5.837330
Quay capacity	50 metres 30 metres
Short description of port entry and launch	Helgøysund Marina offers a safe and well-sheltered approach in the heart of the Ryfylke fjord basin. The marina provides easy access for visiting boats, with spacious guest berths, fuel facilities, fresh water, electricity, and modern amenities. The marina's protected location and convenient services make Helgøysund an ideal departure point. The nearby bridge provides a maximum air draft clearance of approximately 12 metres. Vessels exceeding this height should not attempt passage through the sound and are advised to navigate east of Helgøy island when approaching the marina.
Depths (port entrance and harbour)	10 metres
Tidal differences	40 cm
Distance from Antwerp	530 NM approximately
Distance to Stavanger	28 NM approximately
Crew facilities in port	Diesel & gasoline fuel dock. Electricity and fresh water. Free Wi-Fi, showers and toilets. Grocery store, restaurant & pub. Sauna, swimming area and water trampoline. Kayak rental. Bicycle rental. Hiking opportunities. Family-friendly facilities and playground.
